

Investigating FOD Damage

What is the damage shown here telling us about what happened?

Session 1. Overview – Tuesday 10:45am

The presenter, George Morse, has successfully analyzed over 2300 FOD/FOA events. The logic used in his investigations will be shared through the use of actual cases.

Session 2. Hands-On-Practice – Wednesday 3:30pm

Hands-on practice on actual hardware employing the investigative techniques learned in Session 1.

Session 3. Review of Hands-On-Practice – Thursday 9:15am.

WHO SHOULD ATTEND?

Operational personnel responsible for the investigation and reporting of FOD Damage.
